

Product group H - c Manifold box Terraquick for geothermal systems

manifold box made of PE incl. manifold
manifold bars DA 63mm each with probe connections DA 32mm or DA 40mm
hose connections welded with box wall,
ball valve PVC DA 32mm or DA 40mm, volume flow control Inline in return line,
filling and discharge connections (designed as ball valve DN 25)
non-trafficable, surface-watertight cover
base area 660x460x500mm (LxWxH)

Article no.	Description	Unit	Euros
500TQT02	Manifold box Terraquick SMALL made of PE incl. manifold 2-fold	Piece	482.77
500TQT03	Manifold box Terraquick SMALL made of PE incl. manifold 3-fold	Piece	596.72
500TQT04	Manifold box Terraquick SMALL made of PE incl. manifold 4-fold	Piece	721.04
500TQT05	Manifold box Terraquick SMALL made of PE incl. manifold 5-fold	Piece	832.93

Product group H - d Manifold box Terraquick for surface collectors

manifold box made of PE for collectors (design without flow control) incl. manifold
manifold bars DA 63mm each with outflows: DA 32mm or DA 40mm
hose connections welded with box wall,
ball valve PVC DA 32mm or DA 40mm,
filling and discharge connections (designed as ball valve DN 25)
non-trafficable, surface-watertight cover
base area 660mm x 460mm x 500mm (LxWxH)

Article no.	Description	Unit	Euros
500TQ002	Manifold box Terraquick SMALL made of PE incl. manifold 2-fold for surface collectors	Piece	445.46
500TQ003	Manifold box Terraquick SMALL made of PE incl. manifold 3-fold for surface collectors	Piece	540.78
500TQ004	Manifold box Terraquick SMALL made of PE incl. manifold 4-fold for surface collectors	Piece	646.44
500TQ005	Manifold box Terraquick SMALL made of PE incl. manifold 5-fold for surface collectors	Piece	739.69

Product group H - dd1 Manifold shaft "EASY" accessible for geothermal systems

manifold manhole for geothermal probes and collectors for loops, base area:

620x620mm

height: 600mm incl. 2 pieces manifold/collection pipes DA 63mm each with: hose connections DA 32mm or DA 40mm,

ball valve PVC DA 32mm or DA 40mm, volume flow control Inline in return line, filling and discharge connections (designed as ball valve DN 25), accessible cover (up to 200kg).

Article no.	Description	Unit	Euros
55533EASY02	Manifold shaft EASY made of PE incl. manifold 2-fold	Piece	561.99
55533EASY03	Manifold shaft EASY made of PE incl. manifold 3-fold	Piece	735.68
55533EASY04	Manifold shaft EASY made of PE incl. manifold 4-fold	Piece	852.99
55533EASY05	Manifold shaft EASY made of PE incl. manifold 5-fold	Piece	969.09
Surcharge shaft attachment 20cm	Total height EASY 0.8m	Piece	52.61
Surcharge shaft attachment 40cm	Total height EASY 1.0m	Piece	74.18

Product group H - dd5 Manifold shaft Basic

Manifold shaft for geothermal probes and collectors for brine circuits, base area: 450mm x 450mm

height: 480mm incl. 2 pieces manifold/collection pipes DA

63mm each with: hose connections DA 32mm or DA 40mm,

ball valve PVC DA 32mm or DA 40mm, volume flow control Inline in return line, filling and discharge fittings (designed as ball valve DN 25), accessible cover.

55533BASIC02	Manifold shaft Basic für geothermal systems 2-fold	Piece	482.77
55533BASIC03	Manifold shaft Basic für geothermal systems 3-fold	Piece	596.72

Product group H - e Manifold shafts 2 - 8-fold SMALL CLASSIC for geothermal systems

Manifold shaft for geothermal probes and collectors for brine circuits, base area:

950x780mm

height: 1150mm incl. 2 pieces manifold/collection pipes D

A 63mm each with: hose connections DA

32mm or DA 40mm,

ball valve PVC DA 32mm or DA 40mm, volume flow control Inline in return line,

filling and discharge fittings (designed as ball valve DN 25), accessible cover

(up to 200kg).

Product group H - f Manifold shafts 2- 20-fold CLASSIC for geothermal systems

Manifold shaft for geothermal probes and collectors for brine circuits, base area:

1400mm x 1000mm

height:1020mm incl. 2 pieces manifold/collection pipes DA 63mm each with: hose connections DA

32mm or DA 40mm,

ball valve PVC DA 32mm or DA 40mm, volume flow control Inline in return line,

filling and discharge fittings (designed as ball valve DN 25), accessible cover (up to 200kg).
