

## Product group H - a Manifold

Geothermal probe manifold made of PE 100, pre-assembled, flow and return DA 63mm each with outflows DA 32mm or DA 40mm (open pipe end design) including volume flow control Inline in return line, ball valve PVC DA 32mm or DA 40mm in flow line, filling and discharge (designed as ball valve DN 25 in the vertical, on manifold bars, upright design),

Pressure tested, corrosion-resistant and low condensation

Article no.	Description	Unit	Euros
50025002	Geothermal probe manifold 2-fold	piece	286.19
50025003	Geothermal probe manifold 3-fold	piece	370.13
50025004	Geothermal probe manifold 4-fold	piece	455.34
50025005	Geothermal probe manifold 5-fold	piece	539.30
50025006	Geothermal probe manifold 6-fold	piece	625.78
50025007	Geothermal probe manifold 7-fold	piece	709.72
50025008	Geothermal probe manifold 8-fold	piece	792.41
50025009	Geothermal probe manifold 9-fold	piece	883.99
50025010	Geothermal probe manifold 10-fold	piece	967.93
50025011	Geothermal probe manifold 11-fold	piece	1264.29
50025012	Geothermal probe manifold 12-fold	piece	1360.95
50025013	Geothermal probe manifold 13-fold	piece	1455.07
50025014	Geothermal probe manifold 14-fold	piece	1554.28
50025015	Geothermal probe manifold 15-fold	piece	1649.67
50025016	Geothermal probe manifold 16-fold	piece	1745.07
50025017	Geothermal probe manifold 17-fold	piece	2037.61
50025018	Geothermal probe manifold 18-fold	piece	2141.91
50025019	Geothermal probe manifold 19-fold	piece	2246.19
50025020	Geothermal probe manifold 20-fold	piece	2351.77
50025021	Geothermal probe manifold 21-fold	piece	2456.06
50025022	Geothermal probe manifold 22-fold	piece	2561.64
50025023	Geothermal probe manifold 23-fold	piece	2667.20
50025024	Geothermal probe manifold 24-fold	piece	2771.50
50025025	Geothermal probe manifold 25-fold	piece	2879.61

## Product group H - aa Accessory

Article no.	Description	Unit	Euros
55042567	Fixation set up to 10-fold manifold	Set	65.48
55042568	Fixation set up to 10-25-fold manifold	Set	98.21

## Product group H - b Manifold for surface collectors

Geothermal probe manifold made of PE 100. pre-assembled. flow and return DA 63mm each with outflows DA 32mm or DA 40mm (open pipe end design) including ball valve PVC DA 32mm or DA 40mm in flow and return lines. filling and discharge fittings (designed as ball valve DN 25 in the vertical. on manifold bars. upright design).

Pressure tested. corrosion-resistant and low condensation

Article no.	Description	Unit	Euros
55025002	Geothermal probe manifold 2-fold for surface collectors (version without flow control)	piece	237.36
55025003	Geothermal probe manifold 3-fold for surface collectors (version without flow control)	piece	296.90
55025004	Geothermal probe manifold 4-fold for surface collectors (version without flow control)	piece	357.71
55025005	Geothermal probe manifold 5-fold for surface collectors (version without flow control)	piece	417.25
55025006	Geothermal probe manifold 6-fold for surface collectors (version without flow control)	piece	479.34
55025007	Geothermal probe manifold 7-fold for surface collectors (version without flow control)	piece	538.87
55025008	Geothermal probe manifold 8-fold for surface collectors (version without flow control)	piece	597.13
55025009	Geothermal probe manifold 9-fold for surface collectors (version without flow control)	piece	664.30
55025010	Geothermal probe manifold 10-fold for surface collectors (version without flow control)	piece	723.85
55025011	Geothermal probe manifold 11-fold for surface collectors (version without flow control)	piece	995.79
55025012	Geothermal probe manifold 12-fold for surface collectors (version without flow control)	piece	1068.05
55025013	Geothermal probe manifold 13-fold for surface collectors (version without flow control)	piece	1137.76
55025014	Geothermal probe manifold 14-fold for surface collectors (version without flow control)	piece	1212.56
55025015	Geothermal probe manifold 15-fold for surface collectors (version without flow control)	piece	1283.55
55025016	Geothermal probe manifold 16-fold for surface collectors (version without flow control)	piece	1354.53
55025017	Geothermal probe manifold 17-fold for surface collectors (version without flow control)	piece	1622.66
55025018	Geothermal probe manifold 18-fold for surface collectors (version without flow control)	piece	1702.56
55025019	Geothermal probe manifold 19-fold for surface collectors (version without flow control)	piece	1782.45
55025020	Geothermal probe manifold 20-fold for surface collectors (version without flow control)	piece	1863.60
55025021	Geothermal probe manifold 21-fold for surface collectors (version without flow control)	piece	1943.49
55025022	Geothermal probe manifold 22-fold for surface collectors (version without flow control)	piece	2024.66
55025023	Geothermal probe manifold 23-fold for surface collectors (version without flow control)	piece	2105.82
55025024	Geothermal probe manifold 24-fold for surface collectors (version without flow control)	piece	2185.70
55025025	Geothermal probe manifold 25-fold for surface collectors (version without flow control)	piece	2269.41
